AS THE ENEMY SEES SILVER.

Senator George W. McBride of Oregon has been interviewed by the Associated Press in New York City. He feels confident that he can pull the Republican party through in his State again next year, though it will be a hard battle, he admits.

As to the attitude of the Democrats of Oregon he says that "the rank and file of the Democratic party is almost unanimous for the nomination of William Jennings Bryan. In my opinion, there is little or no doubt of his nomination."

From Maine to Oregon the rank and file of the Democratic party stand solid for the re-nomination of Bryan and the re-affirmation of the Chicago platform. The only organization identified with the party that has been considered unfriendly to the silver leader and his cause is Tammany and that power has now declared itself in no uncertain tone.

The New York Commercial Advertiser describes the recent Bryan demonstration at Tammany Hall as follows: "The tremendous cheers with which ex-Governor Hoag's references to Bryan and free silver were received at the wigwag came plainly from the heart. Not even the name of Croker himself called forth such enthusiastic applause as did that of the Nebraska politician."

The cause of free silver, says the Salt Lake Herald, is growing every day. Bryan's influence is widening, ex-champions of independent bimetalism to the contrary notwithstanding. The man who licks the silver issue to a corpse and says it is useless to make another stand for silver in this country until conditions change is a deserter on the field of battle whether his name be Peffer or Carruthers, whether his reward be a colossal commission in the goldbug army or a sack of Mark's most potent argument, or both.

REPUBLICAN POLITICAL HEROES.

The hopes of Kansas Republicans are at zero. General Fournier would run for Governor next year and the party can't elect anybody else. General Fournier is a sensible man. He would rather be a hero than a politician. He is grand as a hero while he might make a very poor Governor.

In a national point of view the Republicans are also badly in want of a hero. Dewey would run for President, and Schley isn't a Republican. Perhaps our Republican friends will have to rely for a political hero on Alver, who can run on his best record, or on Skempson, who fought with his jaw bone, or Shaffer, who won a great battle while lying in a hammock over another typhoid. But even these do not exhaust the assortment of Republican heroes, such as they are. Otis is left, who runs the censor department and says the Philippines depend upon ultimate success upon the overthrow of the present administration. He hasn't caught Aguinaldo yet, but for all that he is a hero not to be sneezed at, especially by a party which appears to be so short of material of which political heroes are made of.

NEARLY AND FORGIVELY PUT.

Whether General Miles wants to go to the Philippines is a question not necessary to discuss. The interesting part of it is that the country wants him to go and the administration does not. By the by, the Nevada City Herald sets off a neat thing in the closing sentence of the following, captioned "A Change Needed."

It looks as though we have the wrong man in the right place at more places than one. If President McKinley would rid himself of Alver, Otis and Corbin he would have nothing to lose, and might gain some headway in the Philippine war. It took the late lamented Abraham Lincoln nearly two years to find the man he wanted (Grant), but when he found him he gave him great authority, and it soon became a case of "unconditional surrender" with the enemy. We let pardon for mentioning this, but cite it as an instance of what might be done were politics laid aside and the welfare of the United States army considered. With Miles in Otis' place, Schley in Sampson's, Egau in jail, Dewey doing business at the old stand, and a cheap boy in Alver's chair, the war might be quickly brought to a close.

The trusts, which are admittedly a product of Republican rule, started in

to get a portion of the farmer's profits. Between now and the next Presidential election, the ranchmen will have ample opportunity to study out the problem of where he gets off between the profits nature gives him, and the robbery the trusts inaugurated in order to swipe his profits. Republican attacks on trusts will be confined exclusively to blundering in the "whereases" and "recollected."

BUT little is heard of Gorman's candidacy of late. The demonstration in favor of Bryan at Tammany's great Fourth of July meeting must have been an eye-opener for the gentleman from Maryland. At all events it has proven a mouth-shutter to his little band of Republican contingents who are masquerading as single standard Democrats. We haven't heard of their wagging a jaw for the last ten days.

It is fortunate that the Philippines have no navy. They are giving Uncle Sam trouble enough on land, but thanks to our lucky stars and stripes they are a source of no botheration at sea.

Brave Men Fall.

Victims to stomach, liver and kidney troubles as well as women, and all feel the result in loss of appetite, poisons in the blood, backache, nervousness, headache and tired, listless, rundown feeling. But there's no need to feel like that. Listen to J. W. Gardner, Elaville, Ind. He says: "Electric Bitters are just the thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and appetite than anything I could take. I can now eat anything and have a new lease on life." Only 50 cents, at S. J. Hodgkinson's drug store. Every bottle guaranteed.

Justice Court.

"Cincinnati Red," whose name proves to be Thos. Brown, was sentenced to 90 days imprisonment in the county jail.

C. Dreger was arrested yesterday morning on a charge of burglary. The complaint was filed by Samuel Mayor.

William Sullivan, a tramp, was arrested for vagrancy. He pleaded guilty and was sentenced to 30 days in the county jail.

District Court.

The lawsuit of Foster vs. Gardner was concluded yesterday, Judge Webster and Spencer presenting their final arguments. The case was taken under advisement.

The case of Chas. Knox vs. Governor Rossi was taken up and on stipulation ordered to be considered. Briefs will be filed this week.

Only Authorized Agent.

P. N. Hansen of Carson has forwarded to the JOURNAL a letter from the Independent Company of Chicago, publishers of the book "Republic or Empire," which states that he (Hansen) is the only authorized agent for the work in the district in which Reno is located, and that no one else has a right to take orders here.

RENO FARE DEALER SUICIDES.

J. E. McGugin Ends His Life in San Francisco.

A special telegram to the JOURNAL last night conveyed the intelligence that J. E. McGugin had ended his life by suicide in San Francisco.

McGugin was well known to the sporting fraternity of Reno, having held a third interest in the Palace Hotel faro bank for six or seven years. He was born in New York 46 years ago. His parents moved to Vacaville, California, during his infancy. At the age of 11 he left Vacaville and came to Nevada, where he followed mining for a short time. He commenced dealing faro at Eureka about 14 years ago, and has followed it ever since, coming to Reno in 1897, when he began dealing at the Palace, where he owns a one-third interest in the bank conducted by McGugin, Ordway and Hall.

Two weeks ago he went to San Francisco to consult city physicians regarding a chronic stomach trouble, and last night while suffering with melancholia, with which he was also afflicted, took his own life.

"Johnny" McGugin was a philanthropist among gamblers, giving his money freely to the needy and to charitable causes. He had several thousand dollars in the banks of Washoe county and was considered fairly wealthy.

Mining Machinery Shipments.

Two immense dynamos and a car load of electrical mining machinery will go north on the N-C-O. this morning to the Johnsville Four Hills mine. The machinery was purchased in the east.

Two car loads of hoisting machinery for the Jamison Mining Co., Johnsville, were shipped to the works on the N-C-O. yesterday morning. This machinery was the heaviest ever handled by the N-C-O and was manufactured by the Union Iron Works of San Francisco. Johnsville promises to be one of the best mining towns on the coast and properties there are being rapidly developed.

Installation of Officers.

The following officers were duly installed for the ensuing term at the regular meeting of the A. O. U. W. last night.

E. M. W., J. H. Upson; M. W., H. Werner; F. O., I. Albee; O. J. E. Taylor; Recorder, E. W. Taylor; Financier, F. McKee; Receiver, J. J. Quinn, Guide, E. Pavola. The lodge is in a fine condition and all look forward to a most prosperous term.

A Painful Accident.

While cutting kindling wood with a hatchet last evening, Miss Jo Sullivan, the popular teacher at the Orphan's Home, met with quite a painful accident. She missed the piece of wood, cut chopped about an eighth of an inch off the thumb of her left hand. Dr. McDonald dressed the wound and no serious results are anticipated. The wound is a very painful one.—Enterprise.

Going East.

S. M. Jamison will leave to-day on a visit to his old home in Pennsylvania. He intends to be gone about six weeks and will visit New York city and Washington before his return. Mr. Jamison has lived a full half century on the Pacific Coast, and this will be his second trip east of the Rocky Mountains during that time.

Red Hot From the Gun.

Was the ball that hit G. H. Steadman of Newark, Mich., in the Civil War. It caused horrible ulcers that no treatment helped for 20 years. Then Bucklen's Arnica Salve cured him. Cures cuts, bruises, burns, boils, felonies, corns, skin eruptions. Best pile cure on earth. Twenty-five cents a box. Cure guaranteed. Sold by S. J. Hodgkinson, druggist.

An Impious Retort.

"William and Mary," says a correspondent of the Chicago Record, "is the oldest college in America, although Harvard graduated a class first. In 1686 the Rev. James Blair was sent over to Virginia to act as a sort of deputy for the bishop of London, who had ecclesiastical jurisdiction over the colonial churches. They called him a 'commissary.' In 1691 he returned to England to represent to the king and the bishop the necessity for an institution for higher education. He was kindly received by his sovereign and by the clergy, and in February, 1692, the king granted him a charter and gave him £2,000 in cash and the revenues of certain crown lands.

"Seymour, the attorney general, having received the royal command to draw up the documents, remonstrated. He saw no need of a college in Virginia. The patient Mr. Blair explained that it was needed to educate young men for the ministry and begged the honorable attorney general to remember that the colonists had souls to be saved as well as the people of England.

"'Blank your souls!' exclaimed the impious Seymour. 'Make tobacco!'"

A Bold Statement.

"It's hard to be happy once you've got a reputation for saying sarcastic things," remarked the sad eyed man.

"What's the trouble?"

"I've lost another friend. I complimented him on being the most cool headed person I ever saw. He took it as an allusion to the fact that he is totally bald."—Washington Star.

He Was Scared.

The doctor looked at him.

"You are a dyspeptic," he said.

Then he put his ear to the patient's heart and gravely added:

"A high liver."

"Heavens!" cried the startled patient. "Tain't as high as that, is it?"

PASSING OF THE NIGHTCAP.

Our Catarrhal Troubles Are Largely Due to Its Abandonment.

"If the American people would only put on nightcaps when they go to bed, there would not be near so many cases of catarrhal trouble as there are now," said a Chicago physician. He continued: "It is well known that as a nation the percentage of catarrhal complaints is greater among us than in any other nation in the world and that there are more cases among men than among women. The reason for this disproportion is the absence of nightcaps and the habit of smoking in the open air. Women, if they smoke at all, do not do so in the open air, and if they do not wear nightcaps they are in a measure protected by their heavier heads of hair. Men, on the contrary, habitually wear their hair close to the scalp, so about the temperature of the rooms in which they sleep, and while the rest of the body is carefully protected the head may be exposed all night to a zero temperature and that at the very time when nature is at its lowest ebb and can do the least to protect itself. If we would begin by nightcapping all our children and induce them to keep up the habit in later years, within a generation or two catarrh would be a comparatively rare disease in the United States.

"Englishmen and the people of the continent know an American by two things—his liberality with money and his habit of hawking and spitting. They cannot understand the latter, as catarrh is an unusual complaint abroad. But nightcaps are not. They are a recognized part of the night toilet throughout Europe, and to this is due the freedom of the people there from a distressing complaint.

"Who ever sees a nightcap in this country? But in England it is so much a matter of course that its great writer, Dickens, frequently mentioned it in order to give the proper touch of realism to his creations."—Chicago Inter Ocean.

BERMUDA ONIONS.

Reasons Why They Are So Popular in American Markets.

"Nowhere perhaps in the world are onions grown to such a state of perfection as in the Bermudas," said a wholesale produce merchant to a writer recently. "The balmy climate and rich soil of these islands, together with the careful methods of cultivation, have combined to produce an onion that, for size and flavor, is peerless. The vegetable will average from one-half pound to one pound and a half in weight. It is always sound, juicy and crisp, and these good qualities are so well appreciated by Americans that about 300,000 crates of the onions are annually shipped to the United States.

"Preparations to supply the markets of this country every spring with the vegetable are made early in January, and when gathered in March and April the onions are carefully selected and packed in crates, weighing, when filled, 160 pounds. The onions are then taken to the general receiving wharf, where they are subjected to a rigid inspection by government officers. If the quality of the produce is not good and any imperfect or decayed specimens are found, the farmer is made to pick the goods over and replace them. The onions are then passed by the inspector, and when the crates have been closed and marked by the shipper they are loaded on board a steamship, which, after a voyage of 48 hours, lands them, principally in New York. Here consignments of from 4,000 to 5,000 crates, each containing 150 onions, are received semiweekly. The vegetable is usually sold by the weight and is worth about 5 cents per pound retail."—Washington Star.

Very Plain Reasons Why

We Sell Cheapest

Claims of supremacy are ineffectual unless they are backed by solid arguments that establish absolute facts. Exaggeration flows easily and smoothly from many retail sources. We could advertise wildly and frantically, but crediting the public with intelligence and powers of discrimination, we prefer to print our modest statement, and calmly sustain them with the most logical of reasons, for in fact:

No retailer in the world buys goods more advantageously than the Novelty Dry Goods Store Co. Frequently we may not secure staple articles for less money than others pay, but we in variably sell cheaper

BECAUSE WE ARE SATISFIED WITH SMALLER PROFITS

The actual amount paid for goods is only a part of their cash. Every man and woman understands that each department must contribute its pro rata percentage for general store expenses—including losses that the credit system involves.

Four Reasons Why Our Prices are Lowest: WE DO NOT SELL ON CREDIT WE DO NOT GIVE DISCOUNTS WE ARE VERY CLOSE BUYERS WE ARE NOT EXTRAVAGANT

Other stores tax cash customers for losses sustained by delinquent credit customers. Other stores levy tribute from KUD to compel aid for discounts and commissions granted a favored few. WE DO NOT. You only: my customers get the discount. WE ARE NOT EXTRAVAGANT. Do you grasp the full meaning of these words and comprehend their connection with your purse? The NOVELTY is not an extravagant store. The meretricious, thoughtless features are always foremost. Brilliant and tawdry decorations are costly. Theatrical glare may please the fancy, but it increases the price of goods. Our practical and conservative methods of store management are not intended to appeal to your sense of display. They are meant to accord with your sense of economy. Many houses indulge in spectacular display AT YOUR EXPENSE. The Novelty Dry Goods Store may be comparatively plain, but values are wholesome and distinctive.

There is no better medicine for the babies than Chamberlain's Cough Remedy. Its pleasant taste and prompt and effective cures make it a favorite with mothers and small children. It quickly cures their coughs and colds, preventing pneumonia or other serious consequences. It also cures croup and has been used in tens of thousands of cases without a single failure so far as we have been able to learn. It not only cures croup, but when given as soon as the croupy cough appears, will prevent the attack. In cases of whooping cough it liquefies the tough mucus, making it easier to expectorate, and lessens the severity and frequency of the paroxysms of coughing, thus depriving that disease of all its dangerous consequences. INDIAN LAND ALLOTMENTS.

Not a Howling Success in the State of Nevada

L. H. Wise, special agent of the Land Department, is registered at the Riverside. Mr. Wise has been in western Nevada since last March and has been engaged in looking after the Indian land allotments which have been made under an act of Congress passed several years ago.

He informed a JOURNAL reporter that 738 allotments had been made in Nevada, principally in Churchill, Douglas and Humboldt counties, only four being located in Washoe. The allotments were to the Washoes and non-reservation Indians, each Indian, male or female, being entitled to eighty acres of agricultural or one hundred and sixty of grazing land. The system does not appear to work favorably in this section, as only about one percent of the Indians who have received allotments occupy the land which has been given them.

There are other agents besides Mr. Wise engaged in procuring information, statistics, etc., and they will report to the Land Department at Washington, which in time will report to Congress at the next session, with recommendations in regard to further Indian legislation. It seems more than likely that the allotment system will be discontinued, it having, in this section at least, proven a failure, so far as effecting the result anticipated by Congress—viz., furnishing homes for non-reservation Indians, with the presumption that they would cultivate the land allotted them and make themselves self sustaining.

The Last Resting Place.

The remains of Grace Ethel Evans were last night conveyed by Undertakers Cummings & Stockton to Long Valley, where they will be interred at the family home this morning.

Funeral services were held at the convent building last evening under the auspices of the Rebekahs and Macabees, as the deceased was a member of both these societies.

Grace Evans was born in California and was aged 20 years and five months at the time of her death, being the daughter of Mrs. James Evans. She was for a number of years a student at the State University, where, by reason of her lovely character and cheerful, bright disposition, she had formed a host of friends, who deeply sympathize with the bereaved mother and family in their great affliction.

The hand of Providence is oftentimes heavily laid upon us, and it is hard to see why God should take the light out of a fond mother's life and render what was once a bright home a house of sorrow and mourning. In our earthly shortsightedness we cannot comprehend that He, with all-wise mercy, has taken our loved ones to His eternal home above where peace and joy obtain forever.

County Commissioners.

The Board of County Commissioners met yesterday morning and allowed a few bills, Frazer and Hymers being present. It seems as yet there is no third Commissioner, as Mr. Beck's resignation is not on official record; consequently Mr. Scheeline's appointment is slightly tangled. The board has never received official notification of either Beck's resignation or Scheeline's appointment to fill the vacancy left by Beck. Therefore Washoe county has now only two active Commissioners—Messrs. Frazer and Hymers. There is no doubt that both Beck's resignation and Scheeline's appointment were made in good faith, but they are not on the records. Let the matter be straightened out at once, as there is plenty of business for the board to handle.

An Editor's Life Saved by Chamberlain's Cough Remedy.

During the early part of October, 1898, I contracted a bad cold which settled on my lungs and was neglected until I feared that consumption had appeared in an incipient state. I was constantly coughing and trying to expect something which I could not. I became alarmed and after giving the local doctor a trial bought a bottle of Chamberlain's Cough Remedy and the result was immediate improvement, and after I had used three bottles my lungs were restored to their healthy state.—B. ROYAL BAKING POWDER

ROYAL BAKING POWDER CO., NEW YORK.

SUPERINTENDENTS APPOINTED.

J. R. Ryan of the Con Virginia and Heber Holman of Other Mines.

The most interesting topic of discussion, locally speaking, since the death of Patrick Kervin, was the question of his successor in the superintendency of the various mines under his direction at the time of his death. It is now definitely known that the most important of the group, Con. Virginia, will be managed henceforth by Joseph R. Ryan, the capable and experienced present superintendent of the Hale & Norcross and other mines. Mr. Ryan is too well known on the Comstock to require any introduction to the people of this community, or to need any reference to his reputation as a miner. Suffice it to say that the appointment is a good one and meets with popular approval.

The superintendency of the Gould & Curry, East & Belcher and Utah goes to Heber Holman, at present foreman of the two latter properties. This is another wise selection. Mr. Holman, by his work as foreman of these mines, has proved his worth as a miner and shown himself to have merited the promotion received.

All in all the directors of the various companies concerned have shown rare judgment in their latest selections.—Virginia Report.

A Serious Accident.

On Monday last Hon. A. J. McCone, wife and babe of Virginia City had a narrow escape from death. They were driving through the lower end of Silver City, when a runaway horse attached to a gig collided with Mr. McCone's buggy, turning it over and throwing the occupants violently to the ground. All that was left of the gig was a wheel and axle. Mr. McCone and the baby escaped serious injury, but Mrs. McCone's hip was broken, besides being badly bruised on other parts of her body. The lady was taken to a house near by and afterwards removed to her home on the Divide.

Millions Given Away.

It is certainly gratifying to the public to know of one concern in the land which is not afraid to be generous to the needy and suffering. The proprietors of Dr. King's New Discovery for consumption, coughs and colds, have given away over ten million trial bottles of this great medicine, and have the satisfaction of knowing it has absolutely cured thousands of hopeless cases. Asthma, bronchitis, hoarseness and all diseases of the throat, chest and lungs are surely cured by it. Call on S. J. Hodgkinson, Druggist, and get a trial bottle. Regular size, 50 cents and \$1. Every bottle guaranteed, or price refunded.

A Snake Story.

During a recent trip to Peavine, Henry Riter killed a rattlesnake. It was eleven feet two or two feet eleven inches in length, we forget which. If we remember correctly it had fourteen buttons and a rattle but we won't state positively, as the JOURNAL endeavors always to be very accurate and truthful in its relation of snake and fish stories. Come to think of it, it might not have been a rattler at all, but a black-snake. Anyhow, Henry told the JOURNAL scribe that he killed a snake.

Closing Out.

I am closing out my entire stock of dry goods at actual wholesale cost for cash only; for the purpose of re-opening next door when the building is finished, with altogether new fall and winter goods. Everybody should take advantage of this sale. Every article, from the finest dress goods and silks to the simplest domestic goods and fancy goods, is reduced to cost price and must be sold before removing. jyl11f S. ENRICH.

Office Specialty Case.

In the Supreme Court of the State of Nevada, July 17th, 1899, the case of Office Specialty Manufacturing Company vs. Board of County Commissioners of Washoe County, a petition through writ of mandamus to force the County Board to pay the claim of \$1,498 against the county was denied. It seems that the Specialty Company is having a royal picnic to get any money at all because it presented too large a bill at first.

Working Night and Day.

The easiest and mightiest little thing that ever was made is Dr. King's New Life Pills. Every pill is a sugar-coated globule of health, that changes weakness into strength, listlessness into energy, brain-fag into mental power. They're wonderful in building up the health. Only 25c. per box. Sold by S. J. Hodgkinson Druggist.

Engagement Announced.

In San Francisco the engagement is announced of Miss Alice M. Beatty and Brooks Wright. Miss Beatty is the daughter of W. H. Beatty, ex-Chief Justice of Nevada.

Elected a Teacher.

The School Board for Reno school district, No. 10, at a meeting held yesterday elected Miss Maggie Hymers a teacher in the public schools of this district.

A Social.

The ladies of the W. O. T. U. gave a lawn party last evening at the residence of Mrs. A. M. Ward on Mill street. Ice cream and cake were served as refreshments after the following entertaining program had been rendered: Music, Misses Julien; song, all present; prayer, Rev. G. H. Jones; song, T. Leonard; recitation, Myrtle Gay; recitation, Harvey Paine; song, Louise Ward; reading, Zoa Harding; music, Julien and Corrie; address, Major Hilton.

The address by Major Hilton, the noted lecturer, was both instructive and eloquent. He narrated the wonderful work and remarkable progress made by the W. O. T. U. in a clear, succinct and masterly manner.

The JOURNAL might force gives thanks for the ice cream and cake sent up to them by the good ladies of the W. O. T. U.

Winged Opium Smugglers.

The finding of three carrier pigeons within the last week near San Quentin Prison has caused the officers of that place to believe that they have at last discovered the manner now employed by the convict opium merchants to smuggle opium inside the walls. A few days before Warden Hule's term expired a carrier pigeon was caught in the prison yard with a small quantity of opium attached to one of its legs. A watch was placed on one of the convicts, but nothing developed and the matter dropped out of mind. The recent find of these pigeons has brought the matter once more to the surface and now a strict watch is being kept inside the prison walls, as opium is known to have been smuggled in.

Eight Thousand Per Mile.

In mentioning the assessment of the V. & T. railroad track yesterday the figures per mile should have read \$8,000 instead of \$6,000. The intelligent compositor in this case is exonerated. It was the fault of the writer. "Open confession is good for the soul."
